Problem

- When searching for a suitable website English learning website it is hard to choose when there are so many choices to select from so i created a survey by asking my classmates what are the most important things they look for in these types of websites. The results were:
- %50 easy to use.
- %20 free to access.
- %20 conversations.
- %10 not sure.

Solution

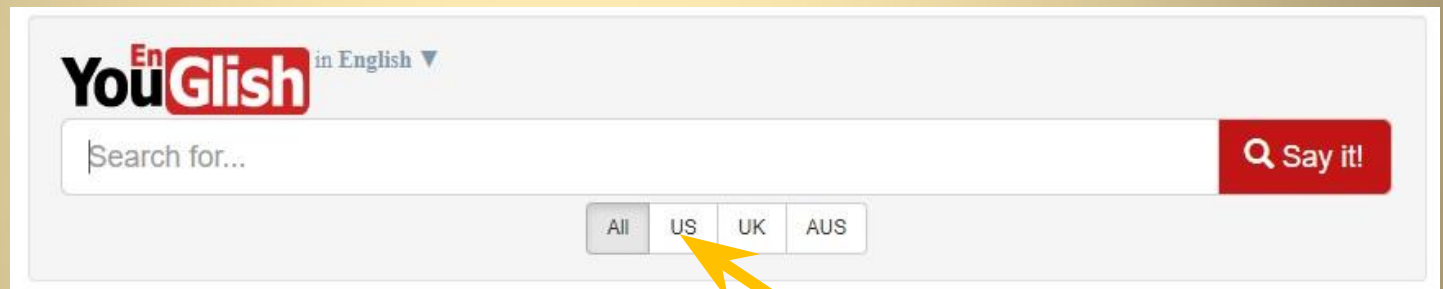

Youghlish.com

Youghlish achieved 90% of what the classmate search for in the survey. It is easy to use, free access and there are conversations for every vocabulary. And I also want to say that I think this website is phenomenal because when you search a vocabulary it will extract it via data mining from real .conversations
